

"How To Rob Banks Legally!"

What I am about to say may come as a shock to you, **and it just may be the most wonderful news of your entire life!** Can you use a **minimum of \$9,000** per month now starting with absolutely **no** money out of your pocket? Yes, as incredible as it may sound, you can be enjoying a **guaranteed \$9,000 a month** income for as long as you want it. It has worked for me, and I want to show you first hand, **how it can work for you!** But before I go one step further, I want you to read my guarantee below.

Hello, my name is Jim Miller and I'm 27 years old. I did not even graduate from high school, and I flunked the 11th grade. **But that has not stopped me from earning over \$540,000 dollars my first year in business, nor has it stopped me from earning over \$1 million dollars my 2nd year.** But before any of that happened my entire life was going completely haywire. I got married at a very early age and at 20 set out to encounter some of the not too pleasant realities of life. My wife was in her 6th month of pregnancy with our first child. Obviously she was in no condition to work, so the sole responsibility was all my own. I had no choice but to take on two full time jobs just to stay afloat to pay the rent, electricity, water, gas, trash, car payment, auto insurance, and to put food on the table. I was getting less than 3 hours sleep at night.

It all finally caught up with me. I fell asleep while on the road and ran into a curb. I was lucky I didn't take the freeway that day. My wife pleaded with me to quit one job but it was just not possible with the baby on the way and all. Then she asked me if I would quit one of my jobs if we had a little extra money to carry us over until the baby was born. The only reason I accepted is because I knew **we had no extra money to begin with.** Then she brought out a sock with \$400 that she said she had been secretly saving for a rainy day. So I quit my night job. A month had already passed and everything seemed fine until I got an emergency phone call at work that my wife had been rushed to the hospital by the paramedics. All that time I found out **she had really been working the whole time.** From what the doctor said, she suffered a severe hemorrhage while on the job, and lost a lot of blood. The baby had to come out although she was only 7½ months, or my wife would die. There was no other way they could stop the bleeding fast enough. **We lost the baby.** It was the most emotional time of our whole lives. It was as if we were living a horrible nightmare, only it was no dream. **It was reality.** As the days passed history began to repeat itself. We were a total of \$30,000 in the hole from the medical bill alone.

All I kept thinking to myself was **"there has got to be a better way".**

Then almost one year later on one special

day I met the man who was about to set me on the **road to riches.** A 67 year old **Japanese bank Tycoon.** He literally took me under his wing and revealed to me the high paying service that banks **"must"** have. **The secret that made him one of the richest men in the world.**

Since that very moment, I put this method into motion **(The same exact method I want to send you),** my whole life has changed forever. **Today, we lead a life that allows us to have everything we desire.** Our dream house. A huge three story French normandy chateau, that's nestled high on a hill top, surrounded by lots and lots of beautiful trees. It's equipped with all the amenities like a built-in pool, hot tub, and tennis court. You can even see the entire city for miles around from the terrace, and at night, **oh at night,** the city lights glisten like billions of diamonds. I've even hired a full time housekeeper for my wife.

If you wanted to buy this house, it wouldn't sell for less than **three million dollars.** You can't imagine how **fabulous** it feels to drive cars like a **\$100,000 Ferrari 348,** a **\$38,000 Porsche 944,** or a **\$137,000 convertible Rolls,** instead of my old broken down "pile of junk". **It's the greatest thrill you'll ever experience.**

I will personally guide you every step of the way on how to make at least **\$9,000 a month from literally every bank that you can think of.** Banks will actually rely on you to deliver a quick simple service that **they absolutely cannot afford to do without.** And because it is so vital to their very survival, they are willing to pay **astronomical** fees for it. After all, wouldn't you gladly pay someone several thousand dollars if they could save you several million? That's what this marvelous business is all about. You are in business, to **keep them in business,** and they will need you, as much as you need them. **That's the bottom line.**

Let me recap what I'm saying. For every bank you merge with, **you will be paid a minimum "flat rate" of \$9,000 per month.** Just **one bank, any bank,** can make you financially independent for life! Now just think of the same idea on a slightly larger scale like **2 banks, 6 banks, even 20 banks or more.** The sky's the limit because there are over **95,000** banks in the U.S. and abroad who are in need of this service every day.

1 bank = \$9,000 per month guaranteed.

2 banks x \$9,000 = \$18,000/month guaranteed.

3 banks x \$9,000 = \$27,000/month guaranteed, and 20 banks = . . . well, I'll let you figure that out for yourself. It's that simple. Why not even **1,000 banks?**

But remember, you don't have to use 20 banks at a time if you don't want to. **All it takes is 1 for \$9,000 a month, 12 months a year!**

Virtually **every bank** is in need of this kind of service (if not using it now), or they will be risking the chance of going broke. **This is an absolute "must" to banks.** That's the **milk and honey** of this business! And here's another pleasant surprise. If the economy were to ever slump, your income will automatically skyrocket! That's the beauty of it. Do yourself the favor, **clip the coupon.** You'll thank me later.
